

Belize Education Project is Seeking Sponsors

The Belize Education Project (BEP) is a Colorado-based non-profit organization whose mission is to improve literacy and education in the Cayo District of Belize. Founded in 2007, BEP strives to achieve our mission by providing needed books and supplies, scholarships for students, and continuing education for teachers. BEP currently sponsors 38 high schools students and two college students.

When you sponsor a high school student for \$800, your donation covers tuition, fees, books and uniforms. Our hope is that you commit to sponsoring your student for the full four years of their high school education. We have developed a rigorous process to ensure selection of students who demonstrate financial need, leadership, community service and a likelihood of success in high school. In addition to sponsorships, donations of any size are welcome, and 100% of donations go directly toward scholarships and other student support.

Sponsors are invited to travel to Belize to visit Eden High School, meet students and families, and immerse in the Belizean culture. There are additional opportunities during the year to collect and pack school supplies, participate in fundraisers, and meet visiting teachers from Belize.

Please join us as a BEP Sponsor! For more information, please contact Rebecca Knight, BEP Scholarship Committee, bepscholarships@yahoo.com .
