

My name is Tracy Landero. I am fourteen years old. I am so excited that this year I will graduate from Primary School. My plan is for me to go to Eden High school.

I want to become a **teacher** because I am creative and love working with children. Please help me in providing a scholarship for me so that my **dreams can become true and that one day I can become a good teacher.**

In advance, I want to say, “thanks” for taking time and considering this letter. so I can become a **great teacher one day**

This was my **first** experience in **teaching**. I am looking forward to learning more! I am excited that I will be **teaching** here at my primary school!
